You could watch a movie with grainy jerky footage but with decent sound.

But you would walk out on a movie if the audio sucked.

Blair Witch Project

Audio

A lot of choices and really all are valid

Headset or Lavalier or Microphone

Condenser or Dynamic

Industry uses XLR for a lot of audio gear
so choosing XLR gear could be useful

Shure SM7B

Rode RodeCaster
Pro

Lighting

After audio lighting is actually the next step

Lighting is more important than camera

universal tenet of photography!

3 Point Lighting

Keylight
(main light)

Fill Light
(secondary)

Rim Light / Hairlight
(outline)

Godox UL150

Aperture Light Dome II

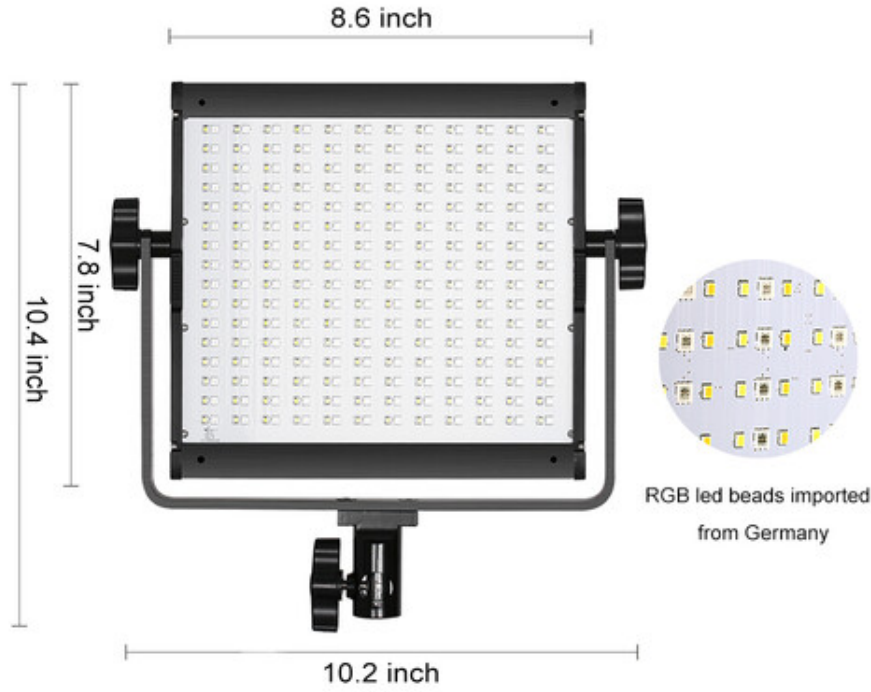

Led Light Panels

RGB Color

li-ion Battery:
Sony.NP-F750/NP- F770

4.7 IB
Weight

Video

- Any webcam looks bad
- Look to point-and-shoot cameras or DSLR or Mirrorless
- HDMI to USB is the trick

Sony ZV1

Elgato Cam Link 4K

When Should You Upgrade

137,352 views • 7 month

Today I discuss when you should upgrade your microphone or audio interface and which device has the most impact on your sound. It's not your audio interface, it's your microphone. Care if you have a good microphone? READ MORE
